

Creating a Slide Show with Pre-recorded Audio

Adobe Photoshop Elements 5.0

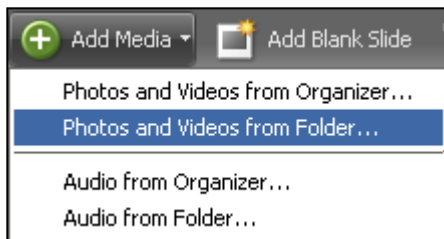

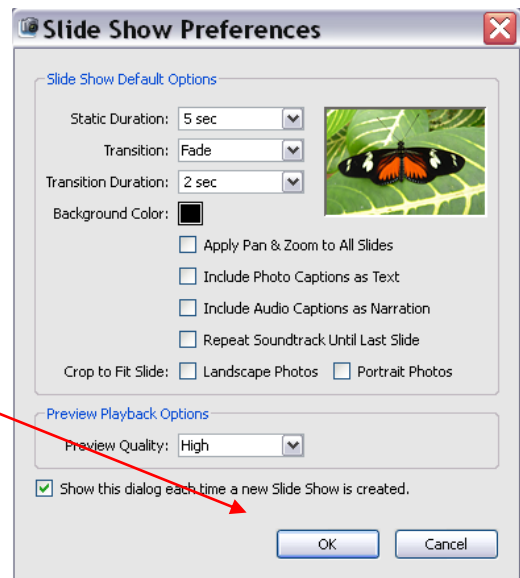

- Open **Adobe Photoshop Elements 5.0**.

- Click **Create** and select **Slide Show** on the toolbar at top. Wait.

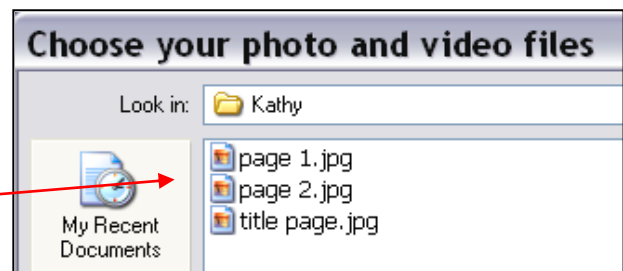

- Click **OK**.

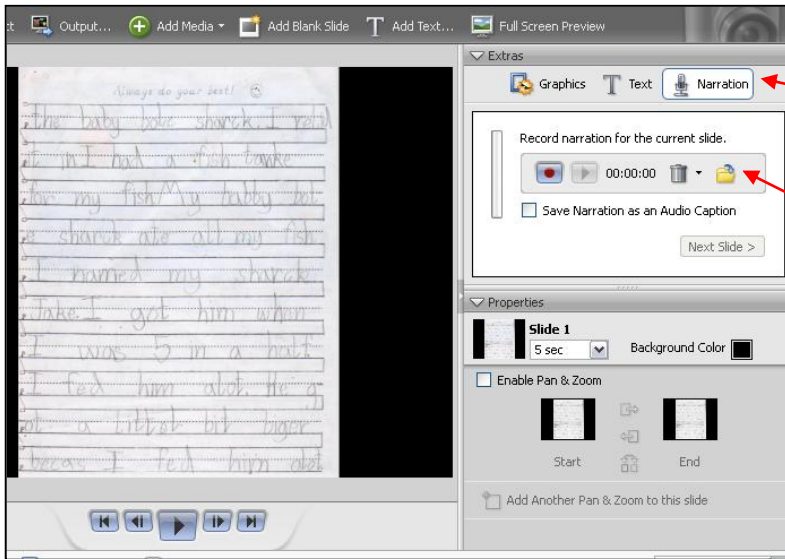

- Click **Add Media** and choose **Photos and Videos from Folder**.

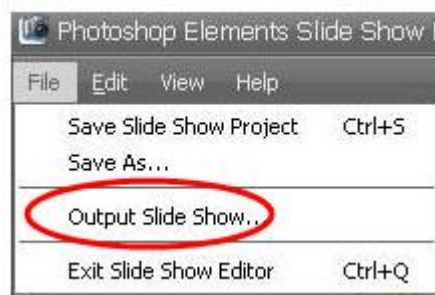

- Go to **the folder you saved your scanned images in**.

- Choose the items you want to add.

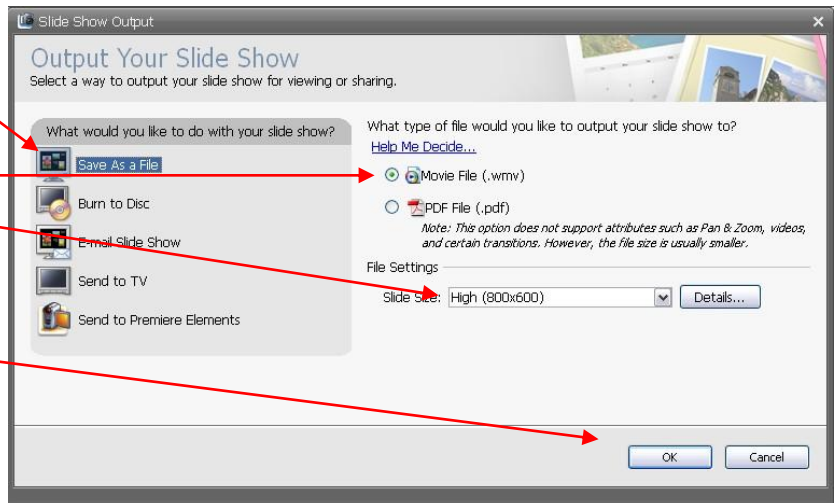

- Click **Narration**.
- Click on the **folder** to find the recording for this page that you saved when you created your recordings.
- Do this for each of the slides in the slideshow.

- To save your slideshow as a movie, select **File** and then choose **Output Slide Show** OR click the **Output** button at the top.

- Choose **Save As a File**.
- Click the button in front of **Movie File**.
- Choose **High (800X600)**.
- Click **OK**.

FINALLY: Save your slideshow in the correct folder. Be sure to name it correctly.
