

FOR IMMEDIATE RELEASE: March 23, 2009
---------------------------------------

## **Parents of Kindergarten-age children urged to register now**

Registration for 2009-2010 Kindergarten is currently in progress. Parents of children who turn five prior to September 1, 2009, are urged to go to their neighborhood Kyrene Elementary School and complete the Kindergarten registration process. While it is true that the education budget decisions at the state legislature have yet to be finalized, and the funding status of Kindergarten has received some recent attention, early registration is still important so we can plan for the correct number of students. When registering, parents of incoming Kindergarteners will be provided with a survey to determine their desires if funding for free full day Kindergarten is changed.

Kyrene also accepts students from outside of the district boundaries through our Open Enrollment Program. If you would like more information regarding Open Enrollment, please log on to [www.kyrene.org](http://www.kyrene.org).
