

FOR IMMEDIATE RELEASE: April 24, 2009

Kyrene Family Resource Center Under Construction

The Kyrene Family Resource Center (FRC) will be getting a new look. Through the District's Portable Replacement Project (thank you voters for this override!), a new and improved Family Resource Center with more space and a better facility to serve our community is coming. To make way for the construction, the FRC will be closed this summer through the Fall of 2009. During this closure, we will be able to serve and help families with emergency referral services, but we will not be able to accept donations. Stay tuned for a planned celebration and GRAND re-opening (expected in January 2010)! We look forward to your continued support and volunteerism – stay tuned for more updates and how you'll be able to help us get back up and running again.
