

FOR IMMEDIATE RELEASE: June 4, 2009

Kyrene School District Community Education is introducing a New Online “Introduction to Photoshop CS4” Course

Tempe, Arizona. Kyrene School District’s Community Education Department is now offering a program that makes it easy to take high-quality, noncredit online courses.

Kyrene has partnered with **ed2go** to offer hundreds of online, instructor-facilitated courses and is pleased to announce the launch of "Introduction to Photoshop CS4." Adobe Photoshop CS4 is the world's most popular graphics-editing software, and in this hands-on, project-oriented course, students will master editing photos, creating basic paintings, and preparing images for printing. Students need no artistic ability or prior Photoshop experience to succeed in--and enjoy--this course.

“Introduction to Photoshop CS4” is part of Kyrene’s growing catalog of more than 300 instructor-facilitated online courses. Through well-crafted lessons, expert online instruction, and interaction with fellow students, participants in these courses gain valuable knowledge at their convenience. They have the flexibility to study at their own pace combined with enough structure and support to complete the course. And they can access the classroom 24/7 from anywhere with an Internet connection.

New sessions of each course run every month. They last six weeks, with two new lessons being released weekly (for a total of 12). The courses are entirely Web-based with comprehensive lessons, quizzes, and assignments. A dedicated professional instructor facilitates every course; pacing learners, answering questions, giving feedback, and facilitating discussions.
