

Esperanza's Fifth Grade Homework Policy

1. Recommend 10 minutes per night, per grade level.
This means that 5th graders would have 10 minutes X 5 (grade level) = 50 minutes total (including all subject areas)
2. Student is able to perform homework assignments independently
3. Homework is meaningful and appropriate for that day's lessons or may introduce new content for future lessons
4. Homework promotes organizational skills
5. Homework develops fluency (accuracy and speed) for procedural knowledge
6. Homework helps students practice and deepen understanding of new knowledge
