Citizens and Governing Board Kyrene Elementary School District No. 28 8700 South Kyrene Rd. Tempe, AZ 85284-2197

State law mandates that school districts required to undergo an annual single audit publish a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America and audited in accordance with auditing standards generally accepted in the United States by a certified public accounting firm licensed in the State of Arizona. Pursuant to that requirement, we hereby issue the annual comprehensive financial report of the Kyrene Elementary School District No. 28 (District) for the fiscal year ended June 30, 2021.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the District has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with accounting principles generally accepted in the United States of America. Because the cost of internal controls should not outweigh their benefits, the District's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free of material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been audited by Heinfeld, Meech & Co., P.C., a certified public accounting firm. The goal of the independent audit was to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2021, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation.

The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's financial statements for the fiscal year ended June 30, 2021, are fairly presented in conformity with accounting principles generally accepted in the United States of America. The independent auditor's report is presented as the first component of the financial section of this report.

LEARNING. LEADING. ACHIEVING.

The independent audit of the financial statements of the District was part of a broader, federally mandated Single Audit as required by the provisions of the Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the District's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in a separately issued Single Audit Reporting Package.

Accounting principles generally accepted in the United States of America require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE DISTRICT

The District is one of 58 public school districts located in Maricopa County, Arizona and provides a program of public education from preschool through grade eight. The projected enrollment for fiscal year 2021-22 is 15,045 students who are served by 18 elementary schools, six middle schools, and one K-8 campus and one K-8 digital academy.

The District's mission is to "commit to student success for all, by providing engaging, challenging educational environments which promote and inspire passion for learning, leading, and achieving transformative life outcomes." The vision for Kyrene Elementary School District is "all students achieve at their maximum potential to become problem solvers, creators, and visionaries of tomorrow."

In support of these objectives, the District provides an excellent education to students with academic support, outstanding teachers and staff, and excellent facilities. Kyrene School District has been offering students an exceptional education for more than 130 years, and the success is evident in the District's accolades. Kyrene schools receive high rankings across the state of Arizona and students excel by consistently outperforming charter schools and peer districts on statewide assessment testing.

Additional highlights include:

- 1. 16 Kyrene schools are Arizona Educational Foundation (AEF) A+ Schools of Excellence.
- 2. Kyrene had a 92% teacher retention rate in the 2020-21 school year.
- 3. Kyrene is home to 24 National Board Certified Teachers.
- 4. 12 Kyrene schools are A-rated by Niche.com; 6 schools are ranked in the top 100 Arizona schools by SchoolDigger.com; 8 schools are ranked in the top 10% by the Public School Review.
- 5. Kyrene has two National Blue Ribbon Schools, Kyrene Traditional Academy and Kyrene de la Sierra.

The District's Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenditures/expenses.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools. The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services and athletic functions.

The annual expenditure budget serves as the foundation for the District's financial planning and control. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual expenditure budget approved by the District's Governing Board.

The expenditure budget is prepared by fund for all Governmental Funds, and includes function and object code detail for the General Fund and some Special Revenue and Capital Projects Funds. The legal level of budgetary control (that is, the level at which expenditures cannot exceed the appropriated amount) is established at the individual fund level for all funds. Funds that are not required to legally adopt a budget may have over-expenditures of budgeted funds. The budget for these funds is simply an estimate and does not prevent the District from exceeding the budget as long as the necessary revenue is earned. The District is not required to prepare an annual budget of revenue; therefore, a deficit budgeted fund balance may be presented. However, this does not affect the District's ability to expend monies.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the District operates.

<u>Local Economy</u>. Maricopa County is located in the south-central portion of Arizona and encompasses an area of approximately 9,222 square miles. Its boundaries encompass the cities of Phoenix, Scottsdale, Mesa, Tempe, Glendale, Chandler, and such towns as Gilbert, Paradise Valley and Fountain Hills. Maricopa County is currently the nation's fourth largest county in terms of population size and the fifteenth in land area. The County's 2020 population was 4.4 million.

The County has a diverse economy and is home to a growing high-tech industry, tourism, manufacturing, service-based industries and construction. The County's major employers include education, retail, services, healthcare, government entities and aerospace.

The District is located across Tempe, Chandler and Phoenix. A few of the major companies represented in this metropolitan area include Banner Health Systems, State Farm Insurance, Wells Fargo, Honeywell and Intel. In addition, this metropolitan area continues to provide excellent educational and training opportunities through ten community colleges, multiple private colleges and graduate schools and one state university.

<u>Long-term Financial Planning</u>. The District has developed a strategic plan that identifies goals in the following areas: High Performing Students, High Quality Talent, Inclusive Culture, Responsive Organization and Collective Governance. Under the goal of Responsive Organization, strategies have been developed to enhance resources, ensure efficient operations and implement continuous process improvements.

As part of the strategy to enhance resources, the District has developed a comprehensive Capital Master Plan to identify capital spending requirements over the next 10 years. This long-term capital planning allows the District to identify projects necessary to keep schools, technology, and facilities operating at high functioning levels as the average age of the buildings in the District is over 30 years.

The District has a balanced budget, maintains cost and budget controls, forecasts future enrollment trends, and aligns spending programs to long-term strategic initiatives. The District has also achieved the highest bond ratings in the state of Arizona as a result of a robust financial position coupled with a large and stable tax base. The District maintains a bond rating of "Aaa" from Moody's and "AA" from Standard and Poor's. The Aaa rating from Moody's is the highest rating assigned to any institution and judges the creditworthiness of the District to be of the highest quality, with minimal credit risk.

The District maintains strong ties and support from the local community. In November 2017, community members in the Kyrene School District voted to approve the continuation of a 15% Maintenance and Operations override, continuation of a Capital Override in the amount of \$6.8 million per year and authorized the District to issue \$116.95 million in new bond sales.

The outbreak and spread of COVID-19, which has been designated a global pandemic by the World Health Organization, has impacted local, state and global economies as well as governments, businesses and schools. The pandemic posed challenges during the 2020-21 school year across the state of Arizona.

In August 2020, the Arizona Department of Health Services (ADHS) released benchmarks for reopening schools for in-person learning in a safe manner. The benchmarks indicated minimal, moderate and substantial spread thresholds. The Maricopa County Department of Public Health (MCDPH) provided weekly updates on local COVID-19 data, to determine whether communities were in the minimal, moderate or substantial categories. Kyrene School District used ADHS benchmarks to develop safety mitigation plans and used the weekly MCDPH data to guide implementation of those plans, based on local community spread levels. The District followed the guidance from federal, state and local health agencies for safety, cleaning, disinfection and mitigation strategies.

For the 2020-21 school year, Kyrene developed multiple learning models that allowed parents to choose between three options: (1) participate in distance learning year-round through the newly launched Kyrene Digital Academy; (2) participate in a distance-learning environment on a quarter-by-quarter basis; or (3) choose to return to in-person learning when the benchmark data indicates that is a safe option.

AWARDS AND ACKNOWLEDGMENTS

Awards. The Association of School Business Officials International (ASBO) awarded a Certificate of Excellence in Financial Reporting and the Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the District for annual comprehensive financial reports for the year ended June 30, 2020. In order to be awarded these certificates, the District published an easily readable and efficiently organized annual comprehensive financial report. This report satisfied both accounting principles generally accepted in the United States of America and applicable legal requirements.

These certificates are valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the programs' requirements and we are submitting it to ASBO and GFOA to determine its eligibility for the fiscal year ended June 30, 2021 certificates.

Acknowledgments. The preparation of the annual comprehensive financial report on a timely basis was made possible by the dedicated service of the entire staff of the business and finance department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, without the leadership and support of the Governing Board, preparation of this report would not have been possible.

Respectfully submitted,

Laura Joenjes

Laura Toenjes Superintendent Chris Herrmann Chief Financial Officer

The Certificate of Excellence in Financial Reporting is presented to

Kyrene Elementary School District 28

for its Comprehensive Annual Financial Report for the Fiscal Year Ended June 30, 2020.

The district report meets the criteria established for ASBO International's Certificate of Excellence.

Independent Auditor's Report

Governing Board Kyrene Elementary School District No. 28

Report on Audit of Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Kyrene Elementary School District No. 28 (District), as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Kyrene Elementary School District No. 28, as of June 30, 2021, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of Kyrene Elementary School District No. 28 and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for one year beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements. In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison information, and net pension liability information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Combining and Individual Fund Financial Statements and Schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Combining and Individual Fund Financial Statements and Schedules information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the Introductory Section and Statistical Section but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on other work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 23, 2021, on our consideration of Kyrene Elementary School District No. 28's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Kyrene Elementary School District No. 28's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Kyrene Elementary School District No. 28's internal control over financial reporting and compliance.

Heinfeld Meech & Co. PC

Heinfeld, Meech & Co., P.C. Scottsdale, Arizona December 23, 2021 (This page intentionally left blank)

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) (Required Supplementary Information)

(This page intentionally left blank)

As management of the Kyrene Elementary School District No. 28 (District), we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2021. The management's discussion and analysis is presented as required supplementary information to supplement the basic financial statements. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found in the introductory section of this report.

FINANCIAL HIGHLIGHTS

- The District's total net position of governmental activities decreased \$5.0 million which represents an 18 percent decrease from the prior fiscal year primarily as a result of decreased activity in the Community Education Program due to the COVID-19 pandemic, combined with a decrease in the state aid allocation.
- General revenues accounted for \$147.7 million in revenue, or 85 percent of all current fiscal year revenues. Program specific revenue in the form of charges for services and grants and contributions accounted for \$25.7 million or 15 percent of total current fiscal year revenues.
- The District had approximately \$178.4 million in expenses related to governmental activities, a decrease of four percent from the prior fiscal year. The decrease is primarily related to the completion of several capital asset projects in the prior fiscal year.
- Among major funds, the General Fund had \$110.5 million current fiscal year revenues, which primarily consisted of state aid and property taxes, and \$108.4 million in expenditures. The General Fund's fund balance increased from \$23.4 million at the prior fiscal year end, to \$25.8 million at the end of the current fiscal year.
- The Debt Service Fund had \$23.6 million in revenues and \$27.4 million in expenditures. The Debt Service Fund's fund balance decreased \$17.4 million due to the defeasance of crossover refunding bonds.
- The Bond Building Fund's fund balance increased \$14.3 million due to the issuance of school improvement bonds.
- Net position for the Internal Service Funds increased \$1.3 million from the prior fiscal year primarily due to the District having more revenues than expenses. Operating revenues of \$16.5 million exceeded operating expenses of \$15.3 million at the end of the current fiscal year.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business. The accrual basis of accounting is used for the government-wide financial statements.

The statement of net position presents information on all of the District's assets, liabilities, and deferred inflows/outflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

The government-wide financial statements outline functions of the District that are principally supported by property taxes and intergovernmental revenues. The governmental activities of the District include instruction, support services, operation and maintenance of plant services, student transportation services, operation of non-instructional services, and interest on long-term debt.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements use the modified accrual basis of accounting and focus on near-term inflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

OVERVIEW OF FINANCIAL STATEMENTS

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General, Debt Service, and Bond Building Funds, all of which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements and schedules.

Proprietary funds. The District maintains one type of proprietary fund. The internal service funds are accounting devices used to accumulate and allocate costs internally among the District's various functions. The internal service funds include (1) the District Services Fund which accounts for the operation of District functions that provide goods or services to other District departments and surrounding Districts on a cost reimbursement basis, (2) the Intergovernmental Agreements Fund which accounts for financial activities related to agreements with other governments where the District is the fiscal agent, (3) the Employee Benefit Trust Fund which provides employee health insurance and (4) the Workers Compensation Fund which accounts for financial activities associated with the insurance program for employee workers' compensation. Because these activities predominately benefit governmental functions, they have been included within governmental activities in the government-wide financial statements.

The internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements.

OVERVIEW OF FINANCIAL STATEMENTS

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found immediately following the basic financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the District's budget process and pension plan. The District adopts an annual expenditure budget for all governmental funds. A schedule of revenues, expenditures and changes in fund balances – budget and actual has been provided for the General Fund as required supplementary information. Schedules for the pension plan have also been provided as required supplementary information.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets and deferred outflows exceeded liabilities by \$23.1 million at the current fiscal year end.

The largest portion of the District's positive net position reflects its investment in capital assets (e.g., land and improvements, buildings and improvements, vehicles, furniture and equipment and construction in progress), less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to its students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. In addition, a portion of the District's net position represents resources that are subject to external restrictions on how they may be used. The remaining balance is unrestricted and may be used to meet the District's ongoing obligations to its citizens and creditors.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table presents a summary of the District's net position for the fiscal years ended June 30, 2021 and June 30, 2020.

	As of	As of
	June 30, 2021	June 30, 2020
Current and other assets	\$ 122,399,832	\$ 116,565,906
Capital assets, net	260,368,612	263,705,072
Total assets	382,768,444	380,270,978
Deferred outflows	31,808,304	19,974,425
Current liabilities	18,321,951	18,963,861
Long-term liabilities	373,153,347	344,869,058
Total liabilities	391,475,298	363,832,919
Deferred inflows		7,625,983
Net position:		
Net investment in capital assets	79,015,926	72,383,417
Restricted	23,350,574	39,378,225
Unrestricted	(79,265,050)	(82,975,141)
Total net position	\$ 23,101,450	\$ 28,786,501

At the end of the current fiscal year, the District reported positive balances in two categories of net position. Unrestricted net position, which is normally used to meet the District's mission, reported a deficit of \$79.3 million. The deficit arose due to the District's proportionate share of the state pension unfunded liabilities. The same situation held true for the prior fiscal year.

The District's financial position is the product of several financial transactions including the net result of activities, the acquisition and payment of debt, and the acquisition and disposal of capital assets. The following are significant current year transactions that had an impact on the Statement of Net Position.

- The addition of \$9.9 million in capital assets through school improvements and the purchase of vehicles, furniture and equipment.
- The addition of \$15.1 million in accumulated depreciation due to the current year depreciation expense.
- The increase of \$24.4 million in pension liabilities.
- The principal retirement of \$26.3 million of bonds.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Changes in net position. The District's total revenues for the current fiscal year were \$173.4 million. The total cost of all programs and services was \$178.4 million. The following table presents a summary of the changes in net position for the fiscal years ended June 30, 2021 and June 30, 2020.

	Fiscal Year	Fiscal Year

Expenses - Fiscal Year 2021

The following are significant current year transactions that have had an impact on the change in net position.

- Instructional and non-instructional expenses decreased \$4.4 million and \$3.6 million, respectively, primarily due to decreased activity in the Community Education Program as a result of the COVID-19 pandemic and the District expending from the CARES Act grant monies.
- Operating grants and contributions increased \$10.8 million as a result of increased grant funding related to the COVID-19 pandemic.
- Charges for services decreased \$7.1 million due to decreased activity in the Community Education program due to the COVID-19 pandemic.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following table presents the cost of the District's major functional activities. The table also shows each function's net cost (total cost less charges for services generated by the activities and intergovernmental aid provided for specific programs). The net cost shows the financial burden that was placed on the State and District's taxpayers by each of these functions.

	Year Ended June 30, 2021		Year Ended June 30, 2020	
	Total	Net (Expense)/	Total	Net (Expense)/
	Expenses	Revenue	Expenses	Revenue
Instruction	\$ 100,534,508	\$ (88,680,661)	\$ 104,942,309	\$ (98,914,453)

Operation and maintenance of				
plant services	17,274,280	(16,351,267)	16,281,746	(13,506,548)
Student transportation services	8,306,277	(7,597,467)	8,976,254	(8,557,671)
Operation of non-instructional				
services	8,793,108	(570,100)	12,389,654	(672,408)
Interest on long-term debt	7,260,703	(7,260,703)	7,108,146	(6,822,762)
Total	\$ 178,433,607	\$(152,780,530)	\$ 186,158,372	\$(162,025,626)

- The cost of all governmental activities this year was \$178.4 million.
- Federal and State governments and charges for services subsidized certain programs with grants and contributions and other local revenues of \$25.7 million.
- Net cost of governmental activities of \$152.8 million was financed by general revenues, which are made up of primarily property taxes of \$78.5 million and state and county aid of \$67.6 million. Investment earnings accounted for \$792,812 of funding.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is reflected in its governmental funds. As the District completed the year, its governmental funds reported a combined fund balance of \$79.7 million, an increase of \$88,445, which is less than one percent.

The General Fund comprises 32 percent of the total fund balance. Approximately \$24.3 million, or 94 percent of the General Fund's fund balance is unassigned.

The General Fund is the principal operating fund of the District. The fund balance increased \$2.5 million in the General Fund to \$25.8 million as of fiscal year end. General Fund revenues decreased \$1.7 million as a result of a decrease in state aid. General Fund expenditures decreased \$1.9 million primarily as a result of the District expending from the CARES Act grant monies.

The Debt Service Fund had \$23.6 million in current fiscal year revenues and \$27.4 million in expenditures. The Debt Service Fund's fund balance decreased from \$19.3 million as of prior fiscal year end to \$1.9 million as of the current fiscal year end primarily due to the defeasance of crossover refunding bonds.

The fund balance in the Bond Building Fund increased \$14.3 million to \$33.9 million as of year end primarily due to the issuance of school improvement bonds.

Proprietary funds. Total net position of the Internal Service Funds increased \$1.3 million to \$2.6 million as of fiscal year end primarily as a result of revenues exceeding expenses. Operating revenues of \$16.5 million exceeded operating expenses of \$15.3 million.

BUDGETARY HIGHLIGHTS

Over the course of the year, the District revised the General Fund annual expenditure budget. The difference between the original budget and the final amended budget was a \$5.6 million decrease, or four percent.

Significant variances for the final amended budget and actual revenues resulted from the District not being required by the State of Arizona to prepare a revenue budget. A schedule showing the original and final budget amounts compared to the District's actual financial activity for the General Fund is provided in this report as required supplementary information. The favorable variance of \$14.7 million in instruction was a result of incorporating the budget carryforward balance in order to maximize budget capacity and provide capacity for possible contingencies in future years.

KYRENE ELEMENTARY SCHOOL DISTRICT NO. 28 MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) YEAR ENDED JUNE 30, 2021

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets. At year end, the District had invested \$503.8 million in capital assets, including school buildings, athletic facilities, buses and other vehicles, computers, and other equipment. This amount represents a net increase prior to depreciation of \$2.5 million from the prior fiscal year, primarily due to an increase in buildings and improvements. Total depreciation expense for the current fiscal year was \$15.1 million.

The following schedule presents a summary of capital asset balances for the fiscal years ended June 30, 2021 and June 30, 2020.

	As of			As of
	Ju	ne 30, 2021	Ju	ine 30, 2020
Capital assets - non-depreciable	\$	30,928,261	\$	35,025,797
Capital assets - depreciable, net		229,440,351		228,679,275
Total	\$	260,368,612	\$	263,705,072

The estimated cost to complete current construction projects is \$5.7 million.

Additional information on the District's capital assets can be found in Note 6.

Debt Administration. At year end, the District had \$219.9 million in long-term debt outstanding, \$19.2 million due within one year. Long-term debt increased by \$3.8 million due to the net effect of the issuance of school improvement bonds and the defeasance of crossover refunding bonds.

The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds (up to 15 percent of the total net full cash assessed valuation) and the statutory debt limit on Class B bonds (the greater of 10 percent of the total net full cash assessed valuation or \$1,500 per student). The current total debt limitation for the District is \$434.1 million and the current Class B debt limit for the District is \$289.4 million which are more than the District's total outstanding general obligation and Class B debt, respectively.

Additional information on the District's long-term debt can be found in Notes 8 and 9.

KYRENE ELEMENTARY SCHOOL DISTRICT NO. 28 MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A) YEAR ENDED JUNE 30, 2021

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

Many factors were considered by the District's administration during the process of developing the fiscal year 2021-22 budget. Among them:

- Fiscal year 2020-21 budget balance carryforward (estimated \$11.9 million).
- District student average daily membership (estimated 14,331).

The coronavirus pandemic (COVID-19) continues to negatively impact Kyrene's finances in the fiscal year 2021-22 budget. Along with additional expenditures needed to deal with the COVID-19 pandemic and create safe learning environments for students and staff, the operational revenues in the fiscal year 2021-22 budget will also be negatively impacted from lower student enrollment in both classrooms and before and after school programs.

Overall, the fiscal year 2021-22 budget assumes a reduction of \$9.4 million in ongoing operational revenues, which is a significant reduction of 8.5 percent vs. the prior year budget. The majority of the operational revenue decline is attributed to expected declines in enrollment. This relates to declining birth rates across Maricopa County, resulting in fewer incoming kindergarten students, and also result from Kyrene being a landlocked district with limited opportunities for housing growth or expansion. The District is undertaking significant cost reduction efforts and reducing expenditures by \$7.5 million while ensuring that funding allocated to the classroom remains at maximum levels. However, even with these large expenditure reductions occurring next fiscal year, it is not enough to offset the loss in operational revenue, resulting in an overall operational budget deficit of \$2.9 million. In order to maintain a balanced budget for fiscal year 2021-22, the District will use a portion of its one-time federal Elementary and Secondary School Emergency Relief (ESSER) grant funding to bridge this budget gap.

Also considered in the development of the budget is the local economy and inflation of the surrounding area.

Budgeted expenditures in the General Fund decreased 3 percent to \$118.8 million in fiscal year 2021-22 due to a decrease in salaries and benefits for support services. State aid and property taxes are expected to be the primary funding sources. No new programs were added in the fiscal year 2021-22.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the resources it receives. If you have questions about this report or need additional information, contact the Business and Finance Department; Kyrene Elementary School District No. 28; 8700 South Kyrene Road; Tempe, Arizona 85284-2197.

KYRENE ELEMENTARY SCHOOL DISTRICT NO. 28 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES YEAR ENDED JUNE 30, 2021

Changes in fund balances - total governmental funds		\$	328,515
Amounts reported for <i>governmental activities</i> in the Statement of Activities are different because:			
Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives and reported as depreciation expense.			
Expenditures for capitalized assets Less current year depreciation	\$ 9,933,566 (15,145,460)		(5,211,894)
Issuance of school improvement bonds and premium provides current financial resources to governmental funds, but the issuance increases long-term liabilities in the Statement of Net Position.			(31,807,956)
Some revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.			
Property taxes Intergovernmental	 (2,356,994) 1,524,607		(832,387)
Repayments of long-term debt principal are expenditures in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position.			32,750,000
Governmental funds report pension contributions as expenditures. However, they are reported as deferred outflows of resources in the Statement of Net Position. The change in the net pension liability, adjusted for deferred items, is reported as pension expense in the Statement of Activities.			
Current year pension contributions Pension expense	10,624,847 (15,003,208)		(4,378,361)
Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.			
Inventory Deferred bond items on issuance of refunding debt Loss on disposal of assets Amortization of deferred bond items Compensated absences	(240,070) (579,055) 1,875,434 1,757,713 (66,768)		2,747,254
The Internal Service Fund is used by management to charge the cost of insurance to the individual funds. The changes in net position of the Internal Service Fund			
is reported with governmental activities in the Statement of Activities. Changes in net position in governmental activities		\$	1,370,210 (5,034,619)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Kyrene Elementary School District No. 28 (District) have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

The more significant of the District's accounting policies are described below.

A. Reporting Entity

The Governing Board is organized under Section 15-321 of the Arizona Revised Statutes (A.R.S.). Management of the District is independent of other state or local governments. The County Treasurer collects taxes for the District, but exercises no control over its expenses/expenditures.

The membership of the Governing Board consists of five members elected by the public. Under existing statutes, the Governing Board's duties and powers include, but are not limited to, the acquisition, maintenance and disposition of school property; the development and adoption of a school program; and the establishment, organization and operation of schools.

The Board also has broad financial responsibilities, including the approval of the annual budget, and the establishment of a system of accounting and budgetary controls.

The financial reporting entity consists of a primary government and its component units. A component unit is a legally separate entity that must be included in the reporting entity in conformity with generally accepted accounting principles. The District is a primary government because it is a special-purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state or local governments. Furthermore, there are no component units combined with the District for financial statement presentation purposes, and the District is not included in any other governmental reporting entity. Consequently, the District's financial statements include only the funds of those organizational entities for which its elected governing board is financially accountable. The District's major operations include education, student transportation, construction and maintenance of District facilities, food services and athletic functions.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) present financial information about the District as a whole. The reported information includes all of the nonfiduciary activities of the District. For the most part, the effect of internal activity has been removed from these statements. Interfund services provided and used are not eliminated in the process of consolidation. These statements are to distinguish between the governmental and business-type activities of the District. Governmental activities normally are supported by taxes and intergovernmental revenues, and are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The District does not have any business-type activities or fiduciary activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Property taxes, unrestricted federal, state, and county aid, and other items not included among program revenues are reported instead as general revenues.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements — The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. As a general rule, the effect of internal activity has been eliminated from the government-wide financial statements; however, the effects of interfund services provided and used between functions are reported as expenses and program revenues at amount approximating their external exchange value.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Fund Financial Statements</u> — Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. As permitted by generally accepted accounting principles the District applies the "early recognition" option for debt service payments. Property tax resources are provided in the Debt Service Fund during the current year for the payment of debt service principal and interest due early in the following year (less than one month). Therefore, the expenditures and related liabilities have been recognized in the current period.

Property taxes, federal, state, and county aid, and investment income associated with the current fiscal period are all considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Food services and miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash. Grants and similar awards are recognized as revenue as soon as all eligibility requirements imposed by the grantor or provider have been met. Unearned revenues arise when resources are received by the District before it has legal claim to them, as when grant monies are received prior to meeting all eligibility requirements imposed by the provider.

Delinquent property taxes and other receivables that will not be collected within the available period have been reported as unavailable revenues on the governmental fund financial statements.

The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The Internal Service Funds are presented in a single column on the face of the proprietary fund statements.

The District reports the following major governmental funds:

General Fund – The General Fund is the District's primary operating fund. It accounts for all resources used to finance District maintenance and operation except those required to be accounted for in other funds. The General Fund includes the District's Maintenance and Operation Fund as well as certain activities budgeted in separate funds in accordance with A.R.S. These funds are maintained as separate funds for budgetary purposes but do not meet the criteria for separate reporting in the financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

<u>Debt Service Fund</u> – The Debt Service Fund accounts for the accumulation of resources for, and the payment of, long-term debt principal, interest and related costs.

<u>Bond Building Fund</u> – The Bond Building Fund accounts for proceeds from District bond issues that are expended on the acquisition or lease of sites; construction or renovation of school buildings; supplying school buildings with furniture, equipment, and technology; improving school grounds; or purchasing pupil transportation vehicles.

Additionally, the District reports the following fund types:

<u>Proprietary Funds</u> – The Proprietary Funds are Internal Service Funds that account for activities related to (1) the operation of District functions that provide goods and services to other districts and internal departments on a cost reimbursement basis, (2) activities related to agreements with other governments where the District is the fiscal agent, (3) the District's self-insurance program for employee benefits and (4) the District's insurance program to pay for workers' compensation insurance premiums.

The Proprietary Fund financial statements are reported using the economic resources measurement focus and accrual basis of accounting and are presented in a single column.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are charges for health and welfare benefits and charges to District departments for goods and services. Operating expenses for internal service funds include the cost of goods and services and administrative expenses. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Cash and Investments

For purposes of the Statement of Cash Flows, the District considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. Cash and cash equivalents at year end were cash in bank and cash and investments held by the County Treasurer.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A.R.S. require the District to deposit all cash with the County Treasurer, except as discussed below. Cash with the County Treasurer is pooled for investment purposes, except for cash of the Debt Service and Bond Building Funds that may be invested separately. Interest earned from investments purchased with pooled monies is allocated to each of the District's funds based on their average balances. As required by statute, interest earnings of the Bond Building Fund are recorded initially in that fund, but then transferred to the Debt Service Fund. All investments are stated at fair value.

Statute authorizes the District to separately invest monies of the Bond Building and Debt Service Funds in the State Treasurer's investment pools; obligations issued and guaranteed by the United States or any of its agencies or instrumentalities; specified state and local government bonds and notes; and interest bearing savings accounts or certificates of deposit.

Statute authorizes the District to deposit monies of the Auxiliary Operations and Student Activities Funds in bank accounts. Monies in these funds may also be invested. In addition, statute authorizes the District to maintain various bank accounts such as clearing accounts to temporarily deposit receipts before they are transmitted to the County Treasurer; revolving accounts to pay minor disbursements; and withholdings accounts for taxes and employee insurance programs. Some of these bank accounts may be interest bearing.

Statute does not include any requirements for credit risk, concentration of credit risk, interest rate risk, or foreign currency risk. Arizona statute requires a pooled collateral program for public deposits and a Statewide Collateral Pool Administrator (Administrator) in the State Treasurer's Office. The purpose of the pooled collateral program is to ensure that governmental entities' public deposits placed in participating depositories are secured with collateral of 102 percent of the public deposits, less any applicable federal depository insurance. An eligible depository may not retain or accept any public deposit unless it has deposited the required collateral with a qualified escrow agent or the Administrator. The Administrator manages the pooled collateral program, including reporting on each depository's compliance with the program.

E. Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments. Investment income is included in other local revenue in the governmental fund financial statements and in nonoperating revenues in the proprietary fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

F. Receivables and Payables

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Interfund balances between governmental funds are eliminated on the Statement of Net Position.

All receivables, including property taxes receivable, are shown net of an allowance for uncollectibles.

G. Property Tax Calendar

The County Treasurer is responsible for collecting property taxes for all governmental entities within the county. The county levies real and personal property taxes on or before the third Monday in August that become due and payable in two equal installments. The first installment is due on the first day of October and becomes delinquent after the first business day of November. The second installment is due on the first day of March of the next year and becomes delinquent after the first business day of May.

Pursuant to A.R.S., a lien against assessed real and personal property attaches on the first day of January preceding assessment and levy; however according to case law, an enforceable legal claim to the asset does not arise.

H. Inventory

Inventories are valued at cost using the average cost method. Inventories consist of expendable supplies held for consumption. Inventories are recorded as expenses when consumed on the government-wide financial statements and as expenditures when purchased on the fund financial statements.

I. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are recorded as expenses when consumed in the government-wide financial statements and as expenditures when purchased in the fund financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

J. Capital Assets

Capital assets, which include land and improvements; buildings and improvements; vehicles, furniture, and equipment; and construction in progress, are reported in the government-wide financial statements.

Capital assets are defined by the District as assets with an initial, individual cost in excess of \$5,000 and an estimated useful life of more than one year. Capital assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the life of the asset are not capitalized.

Capital assets are depreciated using the straight line method over the following estimated useful lives.

Land improvements10-50 yearsBuildings and improvements2-50 yearsVehicles, furniture and equipment5-25 years

K. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position may report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position may report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

L. Compensated Absences

The District's employee vacation and sick leave policies generally provide for granting vacation and sick leave with pay in varying amounts. Only benefits considered vested are recognized in the financial statements. The liability for vacation and sick leave is reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee leave, resignations and retirements. Generally, resources from the General Fund are used to pay for compensated absences.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

M. Pensions

For purposes of measuring the net pension liability, related deferred outflows of resources and deferred inflows of resources, and pension expense, information about the pension plan's fiduciary net position and additions to/deductions from the plan's fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities on the statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight line method. Deferred amounts on refunding result from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

O. Interfund Activity

Flows of cash from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers between governmental funds are eliminated in the Statement of Activities. Interfund transfers in the fund financial statements are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds.

P. Net Position Flow Assumption

In the government-wide and proprietary fund financial statements the District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted amounts are available.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

O. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted, which includes committed, assigned, and unassigned fund balance classifications.

Nonspendable. The nonspendable fund balance classification includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact.

Restricted. Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or is imposed by law through constitutional provisions or enabling legislation.

Committed. The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action of the Governing Board. Those committed amounts cannot be used for any other purpose unless the Governing Board removes or changes the specified use by taking the same type of action it employed to previously commit those amounts. The District does not have a formal policy or procedures for the utilization of committed fund balance, accordingly, no committed fund balance amounts are reported.

Assigned. Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by the Governing Board or a management official delegated that authority by the formal Governing Board action. The District does not have a formal policy or procedures for the utilization of assigned fund balance, accordingly, no assigned fund balance amounts are reported.

NOTE 2 – FUND BALANCE CLASSIFICATIONS

Unassigned. Unassigned fund balance is the residual classification for the General Fund and includes all spendable amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had be restricted, committed, or assigned.

The District applies restricted resources first when outlays are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

The table below provides detail of the major components of the District's fund balance classifications at year end.

	General		Debt Service	Bond Building	Non-Major overnmental
	 Fund	_	Fund	Fund	 Funds
Fund Balances:					
Nonspendable:					
Inventory	\$ 148,725	\$		\$	\$
Restricted:					
Debt service			1,918,580		
Capital projects					6,442,756
Bond building projects				33,939,672	
Voter approved initiatives					7,058,921
Federal and state projects					2,104,778
Auxiliary operations					535,285
Food service					498,421
Civic center					706,341
Community school					466,365
Extracurricular activities					1,225,594
Gifts and donations					463,356
Student activities					226,973
Other purposes	1,357,857				88,760
Unassigned	 24,320,870				 (1,789,834)
Total fund balances	\$ 25,827,452	\$	1,918,580	\$ 33,939,672	\$ 18,027,716

NOTE 3 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

<u>Individual Deficit Fund Balances</u> – At year end, the following individual non-major governmental funds reported deficits in fund balance.

		Deficit		
Non-Major Governmental Funds:				
Title I Grants	\$	109,067		
Professional Development and Technology Grants		38,320		
Indian Education		26,064		
Special Education Grants		188,405		
Other Federal Projects		1,427,978		

The deficits arose because of pending grant reimbursements. Additional revenues received in fiscal year 2021-22 are expected to eliminate the deficits.

<u>Excess Expenditures Over Budget</u> – At year end, the District had expenditures in the funds that exceeded the budgets, however, this does not constitute a violation of any legal provisions.

NOTE 4 – CASH AND INVESTMENTS

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of bank failure the District's deposits may not be returned to the District. The District does not have a deposit policy for custodial credit risk. At year end, the carrying amount of the District's deposits was \$797,691 and the bank balance was \$835,781.

Fair Value Measurements. The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset.

- Level 1 inputs are quoted prices in active markets for identical assets
- Level 2 inputs are significant other observable inputs
- Level 3 inputs are significant unobservable inputs

The County Treasurer's pool is an external investment pool with no regulatory oversight. The pool is not required to register (and is not registered) with the Securities and Exchange Commission. The fair value of each participant's position in the County Treasurer investment pool approximates the value of the participant's shares in the pool and the participants' shares are not identified with specific investments. Participants in the pool are not required to categorize the value of shares in accordance with the fair value hierarchy.

NOTE 4 – CASH AND INVESTMENTS

At year end, the District's investments consisted of the following:

	Average Maturities	Fair Value
County Treasurer's investment pool	842 days	\$ 102,180,163

Interest Rate Risk. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. The District has no investment policy that would further limit its investment choices. As of year end, the District's investment in the County Treasurer's investment pool did not receive a credit quality rating from a national rating agency.

Custodial Credit Risk – Investments. The District's investment in the County Treasurer's investment pool represents a proportionate interest in the pool's portfolio; however, the District's portion is not identified with specific investments and is not subject to custodial credit risk.

NOTE 5 – RECEIVABLES

Receivable balances, net of allowance for uncollectibles, have been disaggregated by type and presented separately in the financial statements with the exception of due from governmental entities. Due from governmental entities, net of allowance for uncollectibles, as of year end for the District's individual major, non-major governmental, and internal service funds in the aggregate, were as follows:

	General Fund		Non-Major Governmental and Other Funds		
Due from other governmental entities:					
Due from federal government	\$	48,476	\$	2,766,953	
Due from state government	14	1,776,710		30,943	
Net due from governmental entities	\$ 14	1,825,186	\$	2,797,896	

NOTE 6 – CAPITAL ASSETS

A summary of capital asset activity for the current fiscal year follows:

	Beginning			Ending
Governmental Activities	Balance	Increase	Decrease	Balance
Capital assets, not being depreciated:				
Land	\$ 25,307,042	\$	\$	\$ 25,307,042
Construction in process	9,718,755	4,615,602	8,713,138	5,621,219
Total capital assets, not being depreciated	35,025,797	4,615,602	8,713,138	30,928,261
Capital assets, being depreciated:				
Land improvements	47,695,759	2,567,966	3,798,438	46,465,287
Buildings and improvements	387,956,823	10,134,633	3,061,040	395,030,416
Vehicles, furniture and equipment	30,617,579	1,328,503	547,265	31,398,817
Total capital assets being depreciated	466,270,161	14,031,102	7,406,743	472,894,520
Less accumulated depreciation for:				
Land improvements	(32,497,468)	(1,320,305)	(3,929,419)	(29,888,354)
Buildings and improvements	(191,564,580)	(11,959,236)	(4,858,006)	(198,665,810)
Vehicles, furniture and equipment	(13,528,838)	(1,865,919)	(494,752)	(14,900,005)
Total accumulated depreciation	(237,590,886)	(15,145,460)	(9,282,177)	(243,454,169)
Total capital assets, being depreciated, net	228,679,275	(1,114,358)	(1,875,434)	229,440,351
Governmental activities capital assets, net	\$ 263,705,072	\$ 3,501,244	\$ 6,837,704	\$ 260,368,612
Total capital assets, being depreciated, net	228,679,275	(1,114,358)	(1,875,434)	229,440,351

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 11,080,257
Support services – students and staff	51,523
Support services – administration	624,487
Operation and maintenance of plant services	1,848,757
Student transportation services	1,398,804
Operation of non-instructional services	 141,632
Total depreciation expense – governmental activities	\$ 15,145,460

<u>Construction Commitments</u> – At year end, the District had contractual commitments related to various capital projects for the remodeling of various schools for exterior weatherization projects. At year end, the District had spent \$5.6 million on the projects and had estimated remaining contractual commitments of \$5.7 million. These projects are being funded with bond proceeds.

NOTE 7 – SHORT TERM DEBT – REVOLVING LINE OF CREDIT

The District has a revolving line of credit to provide cash flow during the year to mitigate the impact of timing differences of expenditures and the receipt of state aid and property tax revenues. At year end, the District had \$4.5 million in unused line of credit.

NOTE 8 – GENERAL OBLIGATION BONDS PAYABLE

Bonds payable at year end, consisted of the following outstanding general obligation bonds. Of the total amount originally authorized, \$52.45 million remains unissued. The bonds are both callable and noncallable with interest payable semiannually. Property taxes from the Debt Service Fund are used to pay bonded debt. In addition, a portion of the District's school improvement bonds are Qualified Build America Bonds (BABS). The District receives a direct subsidy payment from the United States of America for a portion of the interest due on the bonds.

	Original Amount	Interest				Due Within	
Purpose	 Issued	Rates	Maturities	Ju	ine 30, 2021	_(One Year

2017 School Improvement Bonds,							
Series A (Class B)	29,965,000	2.00-5.00%	7/1/21-38		21,350,000		2,275,000
2017 School Improvement Bonds,							
Series B (Class B)	28,005,000	1.00-5.00%	7/1/21-40		28,005,000		6,155,000
Total				\$	202,190,000	\$	19,235,000

NOTE 8 – GENERAL OBLIGATION BONDS PAYABLE

Annual debt service requirements to maturity on general obligation bonds at year end are summarized as follows:

		Governmental Activities				
Year ending June 30:		Principal	Interest			
	2022	\$ 19,235,000	\$	8,430,572		
	2023	13,950,000		7,543,025		
	2024	13,345,000		6,984,025		
	2025	13,950,000		6,364,101		
	2026	11,730,000		5,783,600		
	2027-31	48,720,000		18,000,800		
	2032-36	57,155,000		10,784,613		
	2037-40	24,105,000		2,486,475		
Total		\$202,190,000	\$	66,377,211		

During the year ended June 30, 2018, the District issued \$12.4 million in crossover refunding bonds. As a result, the refunded general obligation bonds were not considered to be defeased until the crossover date of July 1, 2020, at which time the liability for those bonds was removed from the government-wide financial statements. The amount of refunded general obligation bonds defeased on the crossover date was \$13.5 million. This amount and related interest payments have been reported as a payment to refunded bond escrow agent in the accompanying financial statements.

In prior years, the District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the defeased bonds. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the District's financial statements. At year end, \$25,525,000 of defeased bonds are still outstanding.

NOTE 9 – CHANGES IN LONG-TERM LIABILITIES

Long-term liability activity for the current fiscal year was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:	Datatice	Additions	Reductions	Datanec	One rear
Bonds payable:					
General obligation bonds	\$200,435,000	\$28,005,000	\$ 26,250,000	\$202,190,000	\$19,235,000
Premium	15,705,544	3,802,956	1,757,713	17,750,787	
Total bonds payable	216,140,544	31,807,956	28,007,713	219,940,787	19,235,000
Net pension liability	122,042,063	24,417,278		146,459,341	
Compensated absences payable	6,686,451	2,875,327	2,808,559	6,753,219	2,000,000
Governmental activity long-					
term liabilities	\$344,869,058	\$59,100,561	\$ 30,816,272	\$373,153,347	\$21,235,000

NOTE 10 – INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

At year end, interfund balances were as follows:

Due to/from other funds

At year end, several non-major governmental funds had negative cash balances in the Treasurer's pooled cash accounts of \$2,025,168. Negative cash on deposit with the County Treasurer was reduced by interfund borrowing with the General Fund. All interfund balances are expected to be paid within one year. In addition, the Intergovernmental Agreements Fund had a negative cash balance of \$50,521 at year end that was reduced by interfund borrowing with the District Services Fund. Both funds were non-major internal services funds.

Interfund transfers:

	Transfers in					
	Debt					
	General Service					
Transfers out	Fund	Fund	Total			
Bond Building Fund	\$	\$ 263,180	\$ 263,180			
Non-Major Governmental Funds	591,652		591,652			
Total	\$ 591,652	\$ 263,180	\$ 854,832			

Transfers between funds are used to (1) move investment income and premium earned in the Bond Building Fund that is required by statute to be expended in the Debt Service Fund and (2) to move federal grant funds restricted for indirect costs to the Indirect Costs Fund, which is reported in the General Fund.

NOTE 11 – CONTINGENT LIABILITIES

<u>Compliance</u> – Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures/expenses that may be disallowed by the grantor cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

<u>Lawsuits</u> – The District is a party to a number of various types of lawsuits, many of which normally occur in governmental operations. The ultimate outcome of the actions is not determinable, however, District management believes that the outcome of these proceedings, either individually or in the aggregate, will not have a materially adverse effect on the accompanying financial statements.

<u>Arbitrage</u> – Under the Tax Reform Act of 1986, interest earned on the debt proceeds in excess of interest expense or expenditure prior to the disbursement of the proceeds must be rebated to the Internal Revenue Service (IRS). Management believes there is no tax arbitrage rebate liability at year end.

NOTE 12 – RISK MANAGEMENT

The District was unable to obtain general property and liability insurance at a cost it considered to be economically justifiable. Therefore, the District joined the Arizona School Risk Retention Trust, Inc. (ASRRT). ASRRT is a public entity risk pool currently operating as a common risk management and insurance program for school districts and community colleges in the State. The District pays an annual premium to ASRRT for its general insurance coverage. The agreement provides that ASRRT will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of specified amounts.

The District joined the Arizona School Alliance for Workers' Compensation, Inc. (Alliance) together with other school districts in the state for risks of loss related to workers' compensation claims. The Alliance is a public entity risk pool currently operating as a common risk management and insurance program for school districts in the State. The District pays quarterly premiums to the Alliance for its employee workers' compensation coverage. The agreement provides that the Alliance will be self-sustaining through members' premiums and will reinsure through commercial companies for claims in excess of specified amounts for each insured event.

The District established the Employee Benefit Trust Fund, an Internal Service Fund, to account for and finance the uninsured risks of loss related to employee health. Under this program, the Fund provides coverage for up to a maximum of \$250,000 for each claim. The Fund purchases commercial insurance for claims in excess of this coverage. Settled claims have not exceeded this coverage in any of the past three fiscal years.

NOTE 12 – RISK MANAGEMENT

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are reevaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. The fund balance for the Employee Benefit Trust Fund was \$1.5 million at year end.

Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. Changes in the balances of claims liabilities during the past two years are as follows:

Year ended

Year ended

	i cai chaca	i cai chaca
	June 30, 2021	June 30, 2020
Claims payable, beginning of fiscal year	\$ 1,994,000	\$ 2,117,000
Current year claims and adjustments	9,970,281	12,762,799
Claim payments	(10,108,681)	(12,885,799)
Claims payable, end of fiscal year	\$ 1,855,600	\$ 1,994,000

NOTE 13 – PENSIONS

Plan Description. District employees participate in the Arizona State Retirement System (ASRS). The ASRS administers a cost-sharing multiple-employer defined benefit pension plan, a cost-sharing multiple-employer defined benefit health insurance premium benefit (OPEB) plan, and a cost-sharing multiple-employer defined benefit long-term disability (OPEB) plan. The Arizona State Retirement System Board governs the ASRS according to the provisions of A.R.S. Title 38, Chapter 5, Articles 2 and 2.1. ASRS is a component unit of the State of Arizona. The ASRS issues a publicly available financial report that includes its financial statements and required supplementary information. The report is available on the ASRS website at www.azasrs.gov.

The ASRS OPEB plans are not further disclosed because of their relative insignificance to the District's financial statements.

NOTE 13 – PENSIONS

Benefits Provided. The ASRS provides retirement, health insurance premium supplement, long-term disability, and survivor benefits. State statute establishes benefit terms. Retirement benefits are calculated on the basis of age, average monthly compensation, and service credit as follows:

	Retirement Initial Membership Date:							
	Before July 1, 2011	On or After July 1, 2011						
Years of service and	Sum of years and age equals 80	30 years, age 55						
age required to	10 years, age 62	25 years, age 60						
receive benefit	5 years, age 50*	10 years, age 62						
	Any years, age 65	5 years, age 50*						
		Any years, age 65						
Final average salary is based on	Highest 36 months of last 120 months	Highest 60 months of last 120 months						
Benefit percent per year of service	2.1% to 2.3%	2.1% to 2.3%						
	*With actuarially reduced benefits							

nt benefits for members who joined the ASRS prior t

Retirement benefits for members who joined the ASRS prior to September 13, 2013, are subject to automatic cost-of-living adjustments based on excess investment earnings. Members with a membership date on or after September 13, 2013, are not eligible for cost-of-living adjustments. Survivor benefits are payable upon a member's death. For retired members, the survivor benefit is determined by the retirement benefit option chosen. For all other members, the beneficiary is entitled to the member's account balance that includes the member's contributions and employer's contributions, plus interest earned.

Contributions. In accordance with state statutes, annual actuarial valuations determine active member and employer contribution requirements. The combined active member and employer contribution rates are expected to finance the costs of benefits employees earn during the year, with an additional amount to finance any unfunded accrued liability. For the current fiscal year, active ASRS members were required by statute to contribute at the actuarially determined rate of 12.22 percent (12.04 percent for retirement and 0.18 percent for long-term disability) of the members' annual covered payroll, and the District was required by statute to contribute at the actuarially determined rate of 12.22 percent (11.65 percent for retirement, 0.39 percent for health insurance premium benefit, and 0.18 percent for long-term disability) of the active members' annual covered payroll. The District's contributions to the pension plan for the year ended June 30, 2021 were \$10,624,847.

NOTE 13 – PENSIONS

Employers are also required to pay an Alternate Contribution Rate (ACR), for retired members who return to work in positions that would typically be filled by an employee who contributes to ASRS. The District was required by statute to contribute at the actuarially determined rate of 10.21 percent (10.14 for retirement and 0.07 percent for long-term disability). ACR contributions are included in employer contributions presented above.

The District's pension plan contributions are paid by the same funds as the employee's salary, with the largest component coming from the General Fund.

Pension Liability. The net pension liability was measured as of June 30, 2020. The total liability used to calculate the net liability was determined using update procedures to roll forward the total liability from an actuarial valuation as of June 30, 2019, to the measurement date of June 30, 2020. The District's proportion of the net liability was based on the District's actual contributions to the applicable plan relative to the total of all participating employers' contributions to the plan for the year ended June 30, 2020.

At June 30, 2021, the District reported the following amounts for its proportionate share of the pension plan net liability. In addition, at June 30, 2020, the District's percentage proportion for the plan and the related change from its proportion measured as of June 30, 2019 was:

Net	District	Increase	
Liability	% Proportion	(Decrease)	
\$ 146,459,341	0.845	0.007	

Pension Expense and Deferred Outflows/Inflows of Resources. The District has deferred outflows and inflows of resources related to the net pension liability. Certain changes in the net pension liability are recognized as pension expense over a period of time rather than the year of occurrence. The District's pension expense for the year ended June 30, 2021 was \$15,003,208.

NOTE 13 – PENSIONS

The District reported deferred outflows of resources related to pensions from the following sources:

	Deferred		Deferred
	Οι	utflows of	Inflows of
	R	esources	 Resources
Differences between expected and actual experience	\$	1,324,979	\$
Changes of assumptions or other inputs			
Net difference between projected and actual earnings			
on pension investments		14,126,175	
Changes in proportion and differences between			
contributions and proportionate share of contributions		1,083,874	
Contributions subsequent to the measurement date		10,624,847	
Total	\$	27,159,875	\$

The District did not have deferred inflows of resources related to pensions during the year.

The amounts of deferred outflows of resources resulting from contributions subsequent to the measurement date as reported in the table above will be recognized as an adjustment of the net pension liability in the year ended June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30:							
	2022	\$	2,423,841				
	2023		4,632,447				
	2024		5,109,588				
	2025		4,369,152				

Actuarial Assumptions. The significant actuarial assumptions used to measure the total pension liability are as follows:

Actuarial valuation date	June 30, 2019
Actuarial roll forward date	June 30, 2020
Actuarial cost method	Entry age normal
Investment rate of return	7.5%
Inflation	2.3%
Projected salary increases	2.7-7.2%
Permanent base increases	Included
Mortality rates	2017 SRA Scale U-MP

NOTE 13 – PENSIONS

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2016. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2017, actuarial valuation.

The long-term expected rate of return on ASRS plan investments was determined to be 7.5 percent using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, excluding any expected inflation.

On June 29, 2018, the ASRS Board approved updated strategic asset allocation targets, to be effective July 2018. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

		Long-Term
		Expected
	Target	Geometric Real
Asset Class	Allocation	Rate of Return
Equity	50%	6.39%
Credit	20	5.44
Interest rate sensitive bonds	10	0.22
Real estate	20	5.85
Total	100%	

Discount Rate. The discount rate used to measure the total pension liability was 7.5 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the ASRS Board's funding policy, which establishes the contractually required rate under Arizona statute. Based on those assumptions, the plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 13 – PENSIONS

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.5 percent, as well as what the proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	Current						
	1% Decrease	Discount Rate	1% Increase				
Rate	6.5%	7.5%	8.5%				
Net liability	\$ 200,281,162	\$ 146,459,341	\$ 101,467,064				

Pension Plan Fiduciary Net Position. Detailed information about the pension plan's fiduciary net position is available in the separately issued ASRS financial report. The report is available on the ASRS website at www.azasrs.gov.

NOTE 14 – PRIOR PERIOD ADJUSTMENT

The July 1, 2020, government-wide net position and the fund balance of the Debt Service Fund do not agree to the prior year financial statements due to a correction of an error. On July 1, 2020 when the 2017B crossover refunding bond date passed and the associated refunded bonds were defeased, it was determined that prior year restricted escrow cash balances were overstated by \$650,432.

REQUIRED SUPPLEMENTARY INFORMATION

KYRENE ELEMENTARY SCHOOL DISTRICT NO. 28 SCHEDULE OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES - BUDGET AND ACTUAL GENERAL YEAR ENDED JUNE 30, 2021

KYRENE ELEMENTARY SCHOOL DISTRICT NO. 28 NOTES TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2021

NOTE 1 – BUDGETARY BASIS OF ACCOUNTING

The District budget is prepared on a basis consistent with accounting principles generally accepted in the United States of America, except for the following items.

- Certain activities reported in the General Fund are budgeted in separate funds in accordance with Arizona Revised Statutes.
- Prepaid items are budgeted in the year prepaid.

The following schedule reconciles expenditures and fund balances at the end of year.

	Total	Fund Balances
	Expenditures	End of Year
Statement of Revenues, Expenditures and Changes in		
Fund Balances – Governmental Funds	\$ 108,402,072	\$ 25,827,452
Activity budgeted as special revenue funds	(101,576)	(6,050,545)
Activity budgeted as capital projects funds	(11,288)	(215,502)
Current-year prepaid items	964,016	
Prior-year prepaid items	(1,237,122)	
Employee insurance account	(169,005)	(34,940)
Schedule of Revenues, Expenditures and Changes in Fund		
Balances - Budget and Actual - General Fund	\$ 107,847,097	\$ 19,526,465

NOTE 2 – PENSION PLAN SCHEDULES

Actuarial Assumptions for Valuations Performed. The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated, which is the most recent actuarial valuation. The actuarial assumptions used are disclosed in the notes to the financial statements.

Factors that Affect Trends. The actuarial assumptions used in the June 30, 2019, valuation were based on the results of an actuarial experience study for the five-year period ended June 30, 2016. The purpose of the experience study was to review actual experience in relation to the actuarial assumptions in effect. The ASRS Board adopted the experience study recommended changes which were applied to the June 30, 2017, actuarial valuation.

SPECIAL REVENUE FUNDS

<u>Classroom Site</u> - to account for the financial activity for the portion of state sales tax collections and permanent state school fund earnings as approved by the voters in 2000.

<u>Instructional Improvement</u> - to account for the activity of monies received from gaming revenue.

<u>County, City, and Town Grants</u> - to account for monies received from county, city and town grants.

<u>English Language Learner</u> - to account for monies received to provide for the incremental cost of instruction to English language learners.

<u>Title I Grants</u> - to account for financial assistance received for the purpose of improving the teaching and learning of children failing, or most at-risk of failing, to meet challenging state academic standards.

<u>Professional Development and Technology Grants</u> - to account for financial assistance received to increase student academic achievement through improving teacher quality.

<u>Limited English and Immigrant Students</u> - to account for financial assistance received for educational services and costs for limited English and immigrant children.

<u>Indian Education</u> - to account for financial assistance received for Indian education at preschool, elementary, secondary and adult levels.

<u>Special Education Grants</u> - to account for supplemental financial assistance received to provide a free, appropriate public education to disabled children.

<u>Medicaid Reimbursement</u> - to account for reimbursements related to specific health services provided to eligible students.

<u>E-Rate</u> - to account for financial assistance received for broadband internet and telecommunication costs.

<u>Other Federal Projects</u> - to account for financial assistance received for other supplemental federal projects.

<u>Results-based Funding</u> - to account for financial assistance received for academic performance results in accordance with A.R.S. §15-249.08.

Other State Projects - to account for financial assistance received for other state projects.

School Plant - to account for proceeds from the sale or lease of school property.

<u>Food Service</u> - to account for the financial activity of school activities that have as their purpose the preparation and serving of regular and incidental meals and snacks in connection with school functions.

<u>Civic Center</u> - to account for monies received from the rental of school facilities for civic activities.

<u>Community School</u> - to account for activity related to academic and skill development for all citizens.

<u>Auxiliary Operations</u> - to account for activity arising from bookstore, athletic and miscellaneous District related operations.

<u>Extracurricular Activities Fees Tax Credit</u> - to account for activity related to monies collected in support of extracurricular activities to be taken as a tax credit by the tax payer in accordance with A.R.S. §43-1089.01.

<u>Gifts and Donations</u> - to account for activity related to gifts, donations, bequests and private grants made to the District.

Fingerprint - to account for activity of fingerprinting employees as mandated by the State.

<u>Textbooks</u> - to account for monies received from students to replace or repair lost or damaged textbooks.

Indirect Costs - to account for monies received from federal projects for administrative costs.

<u>Grants and Gifts to Teachers</u> - to account for grants and gifts under \$1,500 received from private sources that are designated for use by a teacher for instructional purposes.

Advertisement - to account for monies received from the sale of advertising.

<u>Student Activities</u> - to account for monies raised by students to finance student clubs and organizations.

CAPITAL PROJECTS FUNDS

<u>Insurance Proceeds</u> - to account for the monies received from insurance claims.

<u>Litigation Recovery</u> - to account for monies received for and derived from litigation.

<u>Unrestricted Capital Outlay</u> - to account for transactions relating to the acquisition of capital items.

<u>Adjacent Ways</u> - to account for monies received to finance improvements of public ways adjacent to school property.

Bond Building - to account for proceeds from District bond issues that are expended on the acquisition or lease of sites; construction or renovation of school buildings; supplying school buildings with furniture, equipment, and technology; improving school grounds; or purchasing pupil transportation vehicles.

<u>Gifts and Donations - Capital</u> - to account for gifts and donations to be expended for capital acquisitions.

<u>Condemnation</u> - to account for monies received from proceeds from sales by condemnation or right-of-way settlements.

<u>Energy and Water Savings</u> - to account for capital investment monies, energy related rebate, or grant monies and monies from other funding sources to fund energy or water savings projects in school facilities in accordance with A.R.S. §15-910.02.

<u>Building Renewal Grant</u> - to account for building renewal grant monies requested from the School Facilities Board that are used for infrastructure or for major upgrades, repairs, or renovations to areas, systems, or buildings that will maintain or extend their useful life.

STATISTICAL SECTION

The statistical section presents financial statement trends as well as detailed financial and operational information not available elsewhere in the report. The statistical section is intended to enhance the reader's understanding of the information presented in the financial statements, notes to the financial statements, and other supplementary information presented in this report. The statistical section is comprised of the five categories of statistical information presented below.

Financial Trends

These schedules contain information on financial trends to help the reader understand how the District's financial position and financial activities have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the factors affecting the District's ability to generate revenue.

Debt Capacity

These schedules present information to help the reader evaluate the District's current levels of outstanding debt as well as assess the District's ability to make debt payments and/or issue additional debt in the future.

Demographic and Economic Information

These schedules present various demographic and economic indicators to help the reader understand the environment in which the District's financial activities take place and to help make comparisons with other school districts.

Operating Information

These schedules contain information about the District's operations and various resources to help the reader draw conclusions as to how the District's financial information relates to the services provided by the District.

Note: For locally assessed property (i.e., excluding mines, utilities, etc.) Proposition 117, approved by voters in 2012, amended the Arizona Constitution to require that all property taxes after fiscal year 2014-15 be based upon property values limited to five percent in annual growth. The aggregate assessed value of all taxable properties within a taxing jurisdiction (i.e., after applying assessment ratios based on the use of a property), including property values with a growth limit, is currently referred to as net limited assessed value and formerly as primary assessed value. In accordance with Proposition 117, this value is used for all taxing purposes beginning fiscal year 2015-16. Aggregate assessed value without a growth limit is currently referred to as net full cash assessed value and formerly as secondary assessed value. This remains the value utilized for determining debt capacity limits.

Source: The source of this information is the State and County Abstract of the Assessment Roll, Arizona Department of Revenue.

Note: On November 6, 2012, voters approved Proposition 117, an amendment to the Arizona Constitution. Beginning with Tax Year 2015 (Fiscal Year 2016), both primary and secondary taxes are levied against the net limited assessed value. Primary taxes are used for general District operations. Secondary taxes are used to service District bonded debt requirement and other voter-approved overrides.

Source: The source of this information is the District's financial records.

Notes: 1) The District's general obligation bonds are subject to two limits; the Constitutional debt limit (total debt limit) on all general obligation bonds outstanding and the statutory debt limit on Class B bonds outstanding. The calculations of the debt margins are presented in detail for the current fiscal year only.

²⁾ Prior to FY17, net bond premium was restricted by amount and not subject to the statutory debt limit. Beginning with FY17, any additional net premium used for capital projects, bond counsel, printing and preparation of offering documents, a financial advisor, paying agent costs or to pay down debt is counted against both debt limits with the exception of amounts of premium deposited into the Debt Service Fund or a refunding escrow to pay interest payments.
