

## ADD A FOLDER OF IMAGES

You can add a folder of images to your project. A page will be created for each image in the folder.

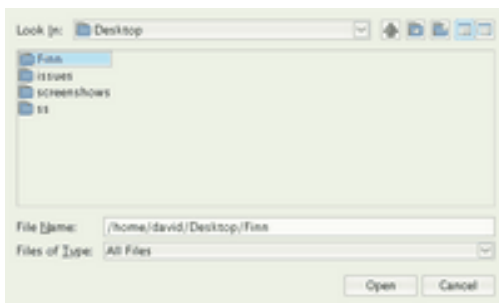

Go to the **Insert** menu, choose **Page**, and select **From Folder**.

You will see the Choose Folder dialog.

Locate the folder you want to add.

Click the folder to select it.

Click the **Choose** button.

A page will be added to the site for every image in the folder.
