RECORDING

You can record sounds to use on your project.

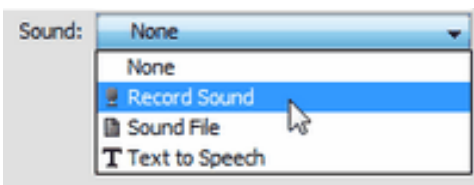

Click a page in the storyboard.

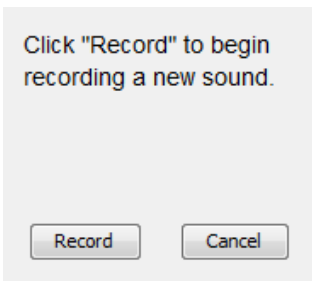

You will see the page options editing panel.

Click the **Sound** pull-down menu and select **Record Sound**.

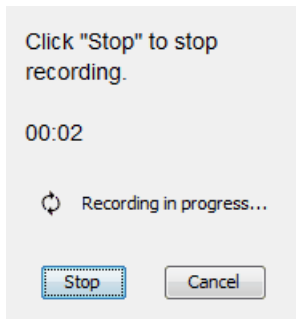

You will see the Record dialog.

Click the **Record** button.

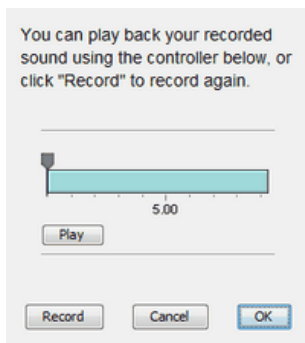

Begin recording the sound.

Click the **Stop** button when you are finished recording.

You can preview the sound you recorded.

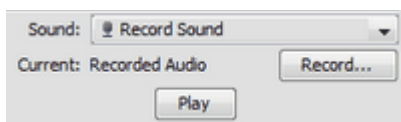

Click the **Play** button.

If you want to record the sound again, click the **Record** button.

If you are happy with the sound, click the **OK** button.

The recorded sound is attached to the page.

Each page in a site can have only one sound.
