

**TECHNOLOGY ACCEPTABLE USE POLICY
STUDENT USER AGREEMENT**

The Kyrene School District provides students with a variety of technology resources, which includes electronic devices, software, and means of electronic communication. The District believes the resources available through the Internet offer significant opportunities for teaching and learning; however, the Internet must be used in a responsible manner. While the District provides protection from harmful material through the use of filtering software, the teacher and the student have the ultimate responsibility for using the Internet according to District guidelines and policy. Details of the user agreement shall be discussed with each potential user. When the signed agreement is returned to the school, the user will be permitted use of technology resources. Additional information regarding technology use in Kyrene can be found in the Family Handbook.
