* A peek at the week *

Ready Math Unit 3: Multi-Digit Operations and Measurement

We will continue our third unit, which focuses on multiplication, division, and area/perimeter. In the unit, students will multiply by one- and two-digit numbers, use multiplication to convert measurements, divide three- and four-digit numbers, and find area and perimeter.

This week, students will focus on using dividing 3-digit numbers. We will also take our district math interim assessment. This assessment assesses students on math standards that were taught, but it does not affect their grade. I will use the data to determine what skills need to be retaught/revisited.

Upcoming assignments

- **Math interim- Tuesday and Wednesday**
- **Lesson 13 quizzes have been graded, see email for more details**

Assignments and homework will be assigned through Google Classroom. If you would like updates on your child's assignments in Google Classroom, please check your email for Google Classroom notifications.

Homework is posted on the "Stream" section of our Google Classroom. If there are any pages to turn-in online, these will also be assigned in the "Quarter 3 Homework" topic of our classwork.

Please encourage your child to complete i-Ready lessons at home, as they are great for extra practice, re-teaching, and skill refinement!
