## \* A peek at the week \*

### Ready Math Unit 3: Multi-Digit Operations and Measurement

We will continue our third unit, which focuses on multiplication, division, and area/perimeter. In the unit, students will multiply by one- and two-digit numbers, use multiplication to convert measurements, divide three- and four-digit numbers, and find area and perimeter.

This week, students will focus on dividing 3-digit numbers. We will also take our second i-Ready math diagnostic. This assessment assesses students' progress with 4<sup>th</sup> grade math skills, but it does not affect their grade. I will use the data to determine what skills need to be retaught/revisited and identify any potential learning gaps. This diagnostic will design individual lessons in i-Ready for student in their "My Path."

## Upcoming assignments

- i-Ready diagnostic- Wednesday-Friday (multiple sessions)
- Lesson 13 quizzes have been graded

Assignments and homework will be assigned through Google Classroom. If you would like updates on your child's assignments in Google Classroom, please check your email for Google Classroom notifications.

Homework is posted on the "Stream" section of our Google Classroom. If there are any pages to turn-in online, these will also be assigned in the "Quarter 3 Homework" topic of our classwork.

Please encourage your child to complete i-Ready lessons at home, as they are great for extra practice, re-teaching, and skill refinement!
