

Our Learning

ELA

We will continue building background knowledge about unique living things in the rainforests and the scientists who study them by exploring various forms of informational text including interviews, articles, and documentary videos.

Students will research the different biomes that Earth has to offer. We will be looking at the negative effects of pollution on these biomes and create potential solutions for the future.

Science

We will be wrapping up conversion of metric and customary units and moving on to categorizing and classifying multi-dimensional figures. There will be a short quiz on Friday. Quarter two math homework will start on Monday the 19th. In-person students will take home a paper copy in their binders and online students will complete homework on Google Classroom. Students have math homework each night, Mon-Thurs, and it is due at the beginning of class the following day.

Math

We will continue our discussion on growth versus fixed mindset and how we can be successful. We will begin a collaborative project that reflects our class goals.

Social/ Emotional

Upcoming Events

- Oct. 21st-22nd - Parent/Teacher Conferences
<https://www.signupgenius.com/go/8050a44a8a82cabfe3-mrmccormicks3>

The Kyrene Monte Vista PTO
presents
the 2020 Virtual Pumpkin Walk
Pumpkin Walk

Please join us in our first ever virtual Pumpkin Walk—2020 style!

Students may carve or decorate a pumpkin. Take a picture of your child with or without their pumpkin carving or decorated pumpkin and email the photos to yearbook@mvpto.org by **Wednesday, October 28th**.

Teachers will share a slideshow of the virtual Pumpkin Walk during class on Friday, October 30, 2020 (class times may vary).

IMPORTANT: The photo slideshow will be shared on the KMV PTO Facebook page and Konstella. Thank you for participating!

What did the orange pumpkin ask the green pumpkin?

A: Are you a Zombie?
