

5th Grade

The "27" Post

Week of October 26-30, 2020

Our Learning

We will answer the question "Why is biodiversity important?" by synthesizing information from various texts.

ELA

We will begin learning about the processes scientists use to conduct research in the natural world.

We will research the environmental and ecological threats to biomes in the United States, such as animal and plant invasion in Yellowstone and environmental pollution caused by factories. Students will identify root causes and create potential solutions to the issues.

Science

Math

Students will use Algebraic Thinking and the Coordinate Plane to show expressions, graph points, locate patterns and find relationships in numbers and operations.

**Social/
Emotional**

We will participate in exercises to illustrate the connection between our thoughts, feelings, and actions, and practice thinking in positive and inclusive ways.

Upcoming Events

- Oct. 27th - Barro's Pizza Fundraiser
- Oct. 28th - Virtual Pumpkin Walk (see next page for details)

Reminders

- Review and sign your child's Leadership Notebook and Weekly Academic and Behavior Reflection.
- Graded work (in-person) is sent home on Friday.

Extras:

Thank you for joining me for Parent Teacher Conferences! I enjoyed celebrating the growth of your children.

The Kyrene Monte Vista PTO
presents
the 2020 Virtual Pumpkin Walk
Pumpkin Walk

Please join us in our first ever virtual Pumpkin Walk—2020 style!

Students may carve or decorate a pumpkin. Take a picture of your child with or without their pumpkin carving or decorated pumpkin and email the photos to yearbook@mvpto.org by **Wednesday, October 28th**.

Teachers will share a slideshow of the virtual Pumpkin Walk during class on Friday, October 30, 2020 (class times may vary).

IMPORTANT: The photo slideshow will be shared on the KMV PTO Facebook page and Konstella. Thank you for participating!

What did the orange pumpkin ask the green pumpkin?

A: Are you a Zombie?
